

TRADITION • INNOVATION • COMMUNITY • ACHIEVEMENT

30th June 2020

Dear Parents and Carers,

Please read this letter with your child, regarding 'The Romford Project'.

Hello Year 7!

Welcome to the Frances Bardsley Academy for Girls.

At school we have an ethos that we follow called 'TICA'. This stands for Tradition, Innovation, Community and Achievement. This project aims to help you develop these values and help you settle into your new school. You will start your year by completing the Romford Project across all subjects.

The Romford Project is a chance for you to settle in, make new friends in your classes and learn about your new community in school, its role within the wider community and the world. You will complete a range of tasks that revolve around these ideas. You will keep all the work in a folder that we would like you to bring in for September and there will be rewards and prizes for those who show the most effort for this project.

To help you prepare for September, certain subjects have asked you to complete tasks that will be needed and used in lessons when you start in September. Attached is a booklet with these tasks on for you to complete this subject. Be creative in your work and bring the whole booklet in September. Your form tutor will check these on the first day and also give Achievement points for the person with the most creative description of themselves, using their name (see page 3).

The project has been uploaded onto the school website under the 'Year 6 to 7 Transition' drop down link. If you can print the project then please do (you will need to print single-sided), if not, please work through the tasks on separate pieces of paper, so they can be given to your different subject teachers in September.

Good luck. Have a lovely summer and see you in September.

Yours sincerely,

Miss Townsend
Teacher of History i/c PSHCEE and Romford Project co-ordinator
